

The benefits are clear

- ✓ Soothes and calms irritated nasal tissue
- ✓ Helps maintain strong, natural nasal function
- ✓ Relieves dryness that may contribute to nosebleeds
- ✓ Assists in easing CPAP related dryness
- ✓ Plant based, vegan formulation
- ✓ Alcohol free and drug free
- ✓ Pleasant mint fresh scent
- ✓ Effective in both dry and humid environments

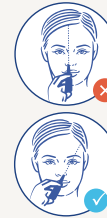

How to use

Before the first usage, remove the protective cap from the nozzle, shake the bottle and prime the pump into a tissue by depressing it firmly several times.

Use RESPI-VIVA up to 4 times per day. Reapply after blowing your nose.

1. Clear your nasal passage.
2. Insert the nozzle into a nostril, aiming the nozzle outwards towards the ear on the same side. (See diagram).
3. Firmly depress the pump with even strokes.
Adults: 2 sprays per nostril.
Children 12 and up: 1 - 2 sprays per nostril.
4. Repeat for the other nostril.
5. Wipe the nozzle with a tissue between each use before replacing the protective cap.

If you use another nasal spray as well, RESPI-VIVA Nasal Spray should be applied afterwards.

**RESPI
VIVA**
NASAL SPRAY

A gentle, triple-action formula that protects the mucosal lining, soothes irritation and restores essential moisture for comfortable relief when our nose needs it most.

Supports Soothers Relieves

Maintaining a healthy nasal environment

Respiratory viruses and allergens most commonly enter our bodies through our nose. The nasal lining, called the mucosa, traps airborne particles, pollutants and allergens before they reach the respiratory tract.

When this lining becomes dry from air conditioning, low humidity, pollution or CPAP use, it cannot perform at its best. Dryness may lead to irritation, discomfort and reduced protection.

Respi-VIVA

Hydrated nasal mucosa support our natural breathing comfort and help maintain our body's protective processes. Respi-VIVA offers gentle, plant based moisture support that helps keep this lining functioning as it should.

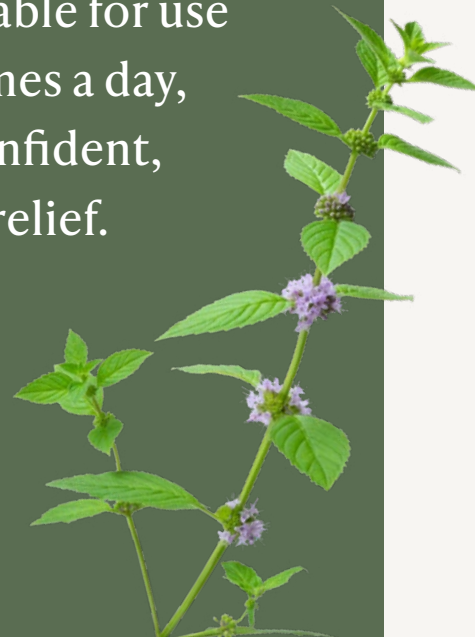

Formulated from more than 99 percent plant based and vegan ingredients, it is designed to be kind to sensitive noses.

helps

Alcohol free, drug free and suitable for use up to four times a day, it delivers confident, dependable relief.

Respi-VIVA is ideal for

Travellers or those spending time in close contact with others

Allergy / Hayfever sufferers

Sleep apnoea users, particularly those using CPAP machines

Individuals prone to dry noses or nosebleeds

Anyone exposed to air conditioned or low humidity environments
